PERSONAL PROJECTS

Personal Portfolio

- A personal portfolio website serves as a digital showcase of one's accomplishments, skills, and creative endeavors. It provides a platform to exhibit a diverse range of projects and highlights an individual's unique talents.
- <https://srinidhi-1249.github.io/repo/>

Online Shopping Website

- Developed a website called Online shopping. The website provides a seamless user experience, allowing customers to browse, compare, and make purchases effortlessly
- <https://srinidhi-1249.github.io/onlineshopping/>

Age Calculator

- I took on the challenge of developing an age calculator using the powerful combination of HTML, CSS, and JavaScript. Leveraging the structure of HTML, I created a user-friendly interface that allowed users to input their birthdates and obtain accurate age calculations.
- <https://srinidhi-1249.github.io/agecalculator/>

Online Quiz Application

- I embarked on the exciting journey of developing an online quiz application using the dynamic trio of HTML, CSS, and JavaScript. I successfully developed an engaging online quiz application that captivates users, tests their knowledge, and provides an interactive learning experience.
